Uniting West Coast Volcanics

Triple Junction Volcanic Red

WASHINGTON | OREGON | CALIFORNIA

WHAT Red blend from three distinct volcanic sites across three states showcases West Coast Volcanic character: intensity, tension, minerality.

WHERE Three volcanic sites: Basalt rock in Red Mountain, Washington; Mazama Ash in Columbia Valley Oregon, and Obsidian glass on our Estate in Northern California.

WHO Founded 25 years ago by Peter Molnar, Arpad Molnar, and Michael Terrien when they found an abandoned walnut orchard on a ridge of glass a half mile high in the sky..

WHY We ventured northward to explore the chain of volcanoes formed by the collision of 3 tectonic plates, aka the Triple Junction.

NOTE A Cabernet-driven blend that highlights the volcanic nature of all three sites: minerality, freshness & structure.

DIGITS 50% Cabernet, 27% Malbec, 15% Petite Sirah, 8% Tempranillo
14.0% abv, 1,500 cases produced.
